

# TURFgrabber™

Serious TRACTION GEAR

by 32north

From everyday lawn care to landscaping professionals, golf groundskeepers, park maintenance crews and highway median crews the Turfgrabber dramatically improves traction and therefore reduces the risk of slips and falls on wet, hilly and uneven terrain.

Engineered to be lightweight with a low center of gravity and wide platform for better stability.

An aggressive replaceable cleat and tread combination gives the user secure footing for safer “walk-behind” operations.

Tension fit bindings made from dual density Thermoplastic Elastomer (TPE) fits securely to sneakers, shoes and work boots.
